Boulder, Colorado | [amanda@aarodgers.com](mailto:amanda@aarodgers.com)  
[github.com/aarodgers](https://github.com/aarodgers) | [linkedin.com/in/aarodgers](https://linkedin.com/in/aarodgers)

**Founder** **2021–present**  
**Women's Directory ([womensdirectory.org](https://womensdirectory.org))** **Denver, CO**

- Women's Directory is a resource for women to find the help they need with everyday life
- Created a simple, accessible directory for affordable services available to women in the Denver area
- Built a data entry system for socially-scalable database management based on Ruby on Rails
- MVP launches Q4 2021, with goals to expand regionally and offer a greater variety of resources

**WIC Clinic Supervisor** **2021**  
**Denver Health** **Denver, CO**

- Managed a diverse team of employees, including onboarding, daily operations, and annual reviews
- Implemented LEAN quality assurance practices and ensured compliance with state and federal laws
- Provided direct nutritional counseling and client services to high-risk participants

**Full-Stack Web Development Student** **2020**  
**Flatiron School of Software Engineering** **Denver, CO**

- Learned fundamentals of Ruby development by building CLI and web applications
- Built a Sinatra application to help teachers organize their educational standards
- Used Active Record to manage SQL databases, structure relational data, and build projects

**Lead Trainer/Database Specialist** **2016-2019**  
**Rental Beast** **Denver, CO**

- Trained new employees on effective use of the organization's proprietary software
- Designed policies, procedures, and quality assurance practices to improve office efficiency
- Provided feedback to management to improve employee compliance and QA processes

**Math and Science Educator** **2014-2018**  
**Tutor Doctor, Westgate Community High School, Doull Elementary School** **Denver/Thornton, CO**

- Wrote all curriculums and taught Chemistry, Earth Science and Spanish I
- Started and supervised weekly coding and programming club for students in 7th through 12th grade
- Communicated with parents and teachers regarding students' academic performance and needs

## Projects

**Education Standards Manager** [github.com/aarodgers/edu\\_standards\\_manager](https://github.com/aarodgers/edu_standards_manager)

- Helps teachers manage the educational resources required for state and federal standards
- Allows teachers to share sets of resources with other teachers to help them build curriculums
- Built with Sinatra, Active Record, ERB templating, and server-side HTML and CSS

**WIC Clinic Finder** [github.com/aarodgers/wic\\_clinic\\_finder](https://github.com/aarodgers/wic_clinic_finder)

- Helps women find WIC clinics to obtain social services, e.g. food stamps and nutrition education
- Scrapes, parses, and displays info from Denver-area WIC websites using Ruby, Nokogiri, and TTY
